Wain. School Division Report On Scholarships

At the request of the Divisional Board at the April meeting the following Scholarship has been drawn up by the office staff and approved by both the Divisional Board and the Department of Education. It will be brought to the attention of all teachers and pupils of the rural schools at the opening of the new school term. This scholarship applies ONLY to pupils in Rural Schools.

1. The scholarships should be two in number, one for a girl and one for a boy.
2. The scholarships should be given to graduating Grade IX students for the purpose of providing an opportunity for them to attend Grade X.
3. Notice of the scholarships should appear in the October Bulletin in October 1944 in order that all Rural School Grade IX pupils will have equal notification.

4. The first scholarships should be awarded for the year 1945-46.
5. The following should be the main conditions governing the choice of the pupils to whom the scholarships would be awarded:

- In making the award scholarship, need, qualities of leadership, and participation in various phases of the school's activities should be considered;
- On or before December 31, 1944, each interested Grade IX pupil should file with the Secretary-Treasurer of the Division an application setting forth personal information concerning himself or herself, including a statement of his or her ambition;
- Such application should be accompanied by a recommendation from the pupil's teacher, and from one other responsible person;
- At a date fixed by the Board (sometime in June, 1945) the prospective candidates should meet in Wainwright and submit to a set of three tests, as follows:
 - A test of intelligence;
 - A test of general information;
 - A test on English and reading ability.

Democracy, of course, means freedom - but freedom with responsibility.

TO HELP PROTECT CHILDREN OF CANADA

GOVERNMENT HOUSE, OTTAWA.

"I desire to call the attention of the people of Canada to National Immunization week, (Sept. 10-16) the object of which is to impress on everyone the importance of protecting children from the four menaces which threaten them—diphtheria, smallpox, whooping cough and scarlet fever. These diseases are all avoidable. They can all be prevented and they can all be eliminated. Science can, however, make little progress without popular support, and popular support will not be forthcoming without popular understanding."

"I warmly commend the Health League of Canada in its praiseworthy efforts to provide that understanding whereby thousands of young Canadian boys and girls may be saved from becoming the victims of wholly preventable maladies."

"ATHLONE"

JOE CITIZEN SAYS—

I'd surely like to pack my grip and start off somewhere on a trip. The family would like it too—this "staying put" the whole year through gets tiresome. Folks do like to range in pastures new and have a change. For health's sake there is none denies a holiday is often wise. Morale it certainly improves and gets us out of ruts and grooves. But this year home's the place for us we're all agreed without a fuss our wanderlust we would restrain and clutter up no crowded train. Besides the money we would spend on holidays, we ought to lend to help to make the war-bond drive a success. And we'll all survive although we never idly roam until the troops are safely home.

- These should be prepared and administered by the superintendent with the assistance of the Secretary-Treasurer. The tests might be scored by a superintendent in one of the neighbouring Divisions;
- The student must make an 'A' standing on the Grade IX examinations as administered and scored by the Department of Education, Province of Alberta;
- The prospective candidates should be interviewed by a committee consisting of the chairman of the Board and the superintendent;
- The award should be made known after the August meeting of the Board after its acceptance of the choice recommended by the committee mentioned above.

6. The scholarships should be valued at \$150.00 each, to be paid as follows:

- Half (\$75.00) when the student registered at a recognized high school on the first day of the school term 1945-46;
- Half at the beginning of the June term provided the pupil continues to do work of a high order as shown by the reports of the principal of the school which he or she attends.

HERBERT T. COUTTS, Supt.

There's no funny business about writing a comic strip these days—especially when it's based on authentic fact and on real people! But that's the only way Milt Caniff, creator of Terry and the Pirates, and Al Barker, who writes the radio show, figure there is any percentage in operating. They know that comics are relaxation these days—not only for kids, but for grown-ups, too, and if they're going to be interesting, they've got to be real!

That's why it's interesting to know that the real "Terry" is "Terry" Benson, who's the "splitting image" of Terry of the comic strip. He has served in India and China, and was the flight officer on a transport plane carrying supplies and mail to the front lines.

"Flip Corkin", the daredevil pilot in Terry and the Pirates, is actually Lieut. Colonel Philip Cochran. He entered the war as a fighting pilot, was the leader of a P-40 fighting group in North Africa. His most noted one-man exploit there was the raid he made on the German headquarters at Kairouan in Tunisia. He tied a bomb to the bottom of his plane, believe it or not, flew low over the building, and plunked the "egg" neatly in the middle. Of course, the blast nearly wrecked the plane, but he rocked groggily away—and made it home!

So it's easy to see why "Terry and the Pirates" is one of the most outstanding comic strips in the papers, and why the show is one of the best on the air! It's because the boys don't fool! When they say something—or have one of their characters doing something—you can be sure there's a basis of authentic fact! None of this "let's make-it-up-after-all-it's-only-a-story" for Milt Caniff and Al Barker. To them, Terry and the Pirates is a serious business, and they're out to prove that these days, even with kids, the catchword for relaxation in reading, or radio is "no foolin'!"

CARD OF THANKS

We wish to extend our heartfelt thanks to all who so kindly assisted and for the sympathy and beautiful floral offerings extended at the death of our late Brother Roderick McLeod. BUFFALO PARK LODGE No. 44. A. F. & A. M.

Employers to Check All Male Employees

An order signed on August 15th by Hon. Humphrey Mitchell, Minister of Labour, requires employers of male employees to check on the documents in the possession of any employee being engaged, so that the employee may be satisfied that the man has not failed to comply with Mobilization Regulations.

While each employer is required to check on all new employees he engages in the future, he is only required to report to the Mobilization Registrar on men thought to be in the designated age classes who fail to furnish evidence that they have complied with the military call-up, or that because of marriage or for other reason, they do not have to comply.

The employer must report on any doubtful case within 7 days of the time he engages the man. Even though a man does not possess documents to show that he has complied with the regulations, the employer is not prohibited from hiring him, providing that any other Selective Service regulations have been complied with.

By an Order of the Minister of Labour signed several months ago, all employers had to similarly check on their male employees by May 1st this year. Under the present order employees are required to report by August 29th, to the nearest Mobilization Registrar, on any employees hired since May 1st, who do not possess the necessary documents.

Employers in business and industry are being notified by mail of their responsibilities under the order just signed, while the necessary report forms are available on application through the Employment and Selective Service Offices. These Local Offices will also assist employers by furnishing information regarding the procedure under the check-up.

BOARD OF TRADE MONTHLY MEETING

The regular monthly meeting of the Wainwright and District Board of Trade will be held at EIGHT P.M. in the Town Hall tonight (Wed.) when a full attendance is needed to deal with important business.

By Order,

SAVE YOUR SCRAP RUBBER

Millions fight and millions die. That, out of all this fuss, we may build a decent world That starts with guys like us.

Tributes to the Late Roderick McLeod

Following is the list of floral tributes marking sympathies in the death of the late Mr. Roderick McLeod as reported last week. Buffalo Park Lodge No. 44, A.F. & A.M., Mr. and Mrs. W. Lyle, Mr. and Mrs. J. Robinson, Mr. and Mrs. L. Baxter, Mr. and Mrs. J. Davidson, Mrs. I. Davidson, Mr. and Mrs. G. Graham & Mrs. Woodger, Dorothy, Nancy, Lily, Beulah, Freda & Doris, The Nurses, Mr. and Mrs. W. Washburn, Mr. and Mrs. A. Treffry, Albert & Beattie, Mr. and Mrs. B. Sharp, Mr. and Mrs. R. Sharp, Mr. and Mrs. A. Hamilton & Harvey, Mr. and Mrs. E. Cotton, Mr. and Mrs. Myggland & Family, Mr. and Mrs. R. Armstrong & Beulah, Sgt. & Mrs. Chesterman, Mr. and Mrs. J. Crawford, Herb & Martha, Mr. and Mrs. G. Christopherson, Mr. and Mrs. J. E. Alderman, Frank & Vina, Alex & Beattie Hutchinson, Earl & Barbara Frickleton, Dave & Annie Walker.

Require Applications For Sporting Shells

Owners of firearms registered or re-registered after August 15, who desire permits for the purchase of ammunition for sporting purposes must apply to the nearest branch office of the Ration Administration.

In Alberta, branches are located at Edmonton, Grande Prairie, Calgary and Lethbridge.

This announcement does not affect owners of firearms which were registered prior to August 15. They are still required to apply to the Local Ration Board and to present their gun registration and ration book or card.

WEDDING BELLS

SEYMOUR-HEUCHERT
The Rev. A. D. Richard performed the marriage ceremony at the United parsonage on Thursday, August 31st, between Miss Eleanore Heuchert, of Biggar, Sask., and Mr. Fred Seymour of the same town. Only private witnesses were present, and the happy couple left for a short honeymoon before returning home to reside.

If you live entirely for yourself, your life work is entirely too small. It will take sand and grit - not soft soap - to clean up the mess we're in.

Standards Set On Canned Poultry

Standards of grading, packing and marking set up in the Livestock and Livestock Products Act have now been extended to all canned poultry manufactured after August 28 for sale in Canada, according to a new order, No. A1319 of the Wartime Prices and Trade Board. Previously, these standards were set on imported provincial and export shipments only.

The order establishes ceiling prices for canned boneless poultry - chicken, fowl and turkey - packed in either glass or metal containers, hermetically sealed. Permitted sizes contain seven or sixteen ounces.

Disposal of stock not packed according to the new standards is provided for in the order, which lists processors' and wholesalers' ceiling prices and limits the retail mark-up. Thus, the ceiling price to consumers for a seven ounce tin of Grade 1 jellied pack chicken will be 53 cents in Halifax, 52 cents in Montreal or Toronto, 50 cents in Winnipeg or Edmonton and 52 cents in Vancouver.

Six Elections Give Liberals Lead

The New Brunswick results put the Liberal party far in the lead in prospects for the next federal election, on the basis of results of the six provincial elections held during the past year. In these the Liberals have elected 113 members, the Socialists 54 and the Progressive Conservatives only 59. Taken in conjunction with the P.E.I. election of a year ago in which the Liberal government was sustained by 20 seats to 10 for the Progressive Conservatives, indications are that the King government will bring to the next Parliament more than the 19 seats they now have federally in the Maritimes. This goes a long way to assure the Liberals the largest party in the next House of Commons with a good chance of securing an over-all majority.

If more of us took God on board as pilot we would not get lost in so much foggy thinking.

To find the secret of true greatness look for greatness in the other fellow.

It's striking a new note - not soft-pedalling the discords - that will make world harmony.

Wain. School Division Appoints New Teachers

Minutes of meeting held at the office of the Secretary on August, 25th 1944.

Members present, H. E. Spencer, Chairman, T. C. Sanders, F. E. Dixon, M. J. Nicholson.

Mr. Spencer spoke fittingly of the late Mr. Patterson who had always shown a keen interest and excellent judgment in the affairs of the School Division, and the Secretary was instructed to extend condolences to Mrs. Patterson on behalf of this Board.

Mr. M. J. Nicholson was welcomed back to the Board after a somewhat prolonged illness.

Moved by Mr. Spencer that the minutes of the last meeting be adopted as corrected. Cd.

Moved by Mr. Nicholson that we request the sum of \$250.00 from the Department of Education to pay one half of the cost of teacherage at Butteville. Cd.

Moved by Mr. Sanders that the office be authorized to proceed with the arrangements leading to the establishment of Public Health Services for all schools within the Division. Cd.

Moved by Mr. Spencer that all correspondence be filed. Cd.

Moved by Mr. Sanders that for the convenience of the ratepayers in subdivision one, nominations for sub-divisional trustee be received at the Irma Rural High School between the hours of eight and nine p.m. on Saturday, September 9th. Cd.

Moved by Mr. Dixon that the Superintendent's Report be adopted. Cd.

Moved by Mr. Spencer that the office advertise for tenders for the Irma High School Addition immediately upon receipt of plans from the Buildings Branch, Department of Education. Cd.

Moved by Mr. Nicholson that a committee consisting of Mr. Sanders and Mr. Dixon be appointed with power to act regarding the new addition to the Irma Rural High School. Cd.

Moved by Mr. Sanders that accounts in the amount of \$12,185.80 be paid and the same to be incorporated in the minutes. Cd.

Post-War and The Farmer

The cash income of Canadian farmers reached an all-time high level in 1943, the total being \$1,397 million. I do not think that such a total is extraordinarily high in view of the 40 per cent increase in volume of farm production in the dominion during the war years.

Always during war the farm income rises. In times of peace the average farmer has quite a struggle to make a living. Sometimes prices go down very low. For instance, in 1932 the total Canadian farm income was only \$583.5 million or less than a third of the 1943 total.

What are farmers going to do with the money accumulated during these years of better prices? Quite vividly I remember what many farmers did with their money during World War I. They invested it in land and livestock at peak prices, using not only their cash resources but their credit. In the succeeding depression thousands were swept into bankruptcy. Land which sold for as high as \$100 an acre in the boom period got down to less than a quarter of that price in the depressed years.

What farmers should remember is that "trees never grow to the sky." History shows that wartime prices for farm products never persist in the subsequent peace years.

Speaking particularly about Western Canada I believe farmers should follow a different policy than they did during World War I. The prairie provinces have a comparatively short history. Much of the settlement is no more than a generation old. Many farm families are original pioneers. The raw frontier life isn't far behind us.

The time has come in these prairie provinces for the investment of money in living rather than with the hope of getting more money. After all, we have only one life to live. Surely farm families are entitled to enjoyment of at least the comforts and possibly a few of the little luxuries of life.

Moved by Mr. Sanders that Mr. Spencer and Mr. Dixon form the Edgerton building committee. Cd.

Moved by Mr. Spencer that Edgerton building committee be authorized to make progress payments as provided for in the specifications. Cd.

The following resignations were accepted by the Board: Miss C. Patterson, Miss Ellen Norris, Miss Cleo Windum, Miss Gladys Mills, Mr. Jack Stead, Miss Margaret Shotts, Mr. L. R. McLeay, Miss Alma Richardson, Miss Solveig Steffenson, Miss Jean Craig, Miss Dorothy Currie, Mrs. Worrall and Miss Ruth Ruste.

The following applications were accepted by the Board and temporary allocations made as follows: Miss Helen Melnyk, Battle Heights; Mrs. W. Richenbaugh, Greenshields; Miss Louise Currier, Metropolitan; Miss R. Giebelhaus, Plaxtonville; Miss Eleanor Hill, Prosperity; Miss D. Owen, Roseberry; Miss Joyce Stairs, Sunny Brae; Mrs. J. H. Bradley, Fabian; Mrs. E. M. Baier, not yet placed; Mrs. I. Hamilton, Gerald.

The teacher shortage is still very critical and some changes in allocations may have to be made later.

Satisfactory progress has been made by the contractors on the Ribstone S. D. No. 1629. The furnace has been installed and the building will be complete in every detail well before the opening of school for the new term. The Edgerton building is under way and it is hoped that one room will be finished by the opening of school.

Moved by Mr. Dixon that we adjourn. Cd.

Appointment to Agricultural

Prices Support Board.

Within a few days after adjournment of Parliament, the government moved to put into effect its economic measures to assure post-war prosperity in Canada. One of the first steps was appointment of Hon. J. G. Taggart, former minister of agriculture for Saskatchewan, as permanent chairman of the board to administer the Agricultural Price Support Act. Two temporary members of the board A. M. Shaw and J. F. Booth, both experienced officials of the federal agriculture department, were also named. An initial amount of \$200,000,000 has been set aside to maintain a floor under the prices of all agricultural produce and products. Early appointment of the board to administer the plan is assurance that the arrangement will be put in operation in plenty of time to stave off any price depression which may otherwise develop after the war.

Not long ago I read a statement by an architect that if a thousand typical homes from the farms of western Canada were laid out in one street the result would be a community which in most of its physical respects was just another urban slum. In plain language, what that means is prairie provinces is typical of the average home in the slum ends of the cities. I think the situation is even worse than that outlined by the architect. The average home even in the city slums has electricity, running water, gas, and even probably a furnace. How many farm homes are thus equipped?

I believe that lack of decent housing and home comforts on prairie farms is a direct cause of most of the trend of the farm youth to the cities. I believe that a campaign should be undertaken to improve and beautify farm homes. Farmers should be encouraged to save for the particular purpose of improving the farm home and its surroundings. A special fund might be created by each farm family for that purpose. The whole family would be interested in increasing that fund. Then when peace times come the money would be available for the building of a new home or the repairing of the old; for the installation of a water system, electric lighting, and a furnace. An investment in such improvements is a "sure thing." You cannot possibly lose. Your gain will be in the easing of toil for your wife and yourself, in the enjoyment in living for your family, and in a sense of accomplishing improvements which will encourage your neighbors to do likewise.

Wounded Veterans Staff C.P.R. Hospital Cars

Assigned to regular hospital car service by the Canadian Pacific Railway these four porters, standing in front of the ever-changing map of the Battle of Europe in the Windsor Station at Montreal, have a record of 22 years of service and wounds from seven actions in two wars. Left to right the four who have the bond of a common experience with the wounded

servicemen they look after on the coast-to-coast runs of hospital trains are Jean Napoleon Maurice, Montreal, wounded at Dieppe and in Italy; James E. Thompson, Montreal, casualty of the London Blitz; R. Winslow, Montreal, wounded at Vimy Ridge and Amiens; Sam Morgan, Verdun, veteran of this war and the last one, wounded at Second Ypres and Dieppe.

WAINWRIGHT, WEDNESDAY SEPTEMBER 6th, 1944

TEAMWORK

On Labour Day this year we still
think of having a vacation. By
Labour Day next year we may worry
about having a job. Something is
going to happen to industry after the
war. What happens may depend upon
what happens between us and the
next man as we work together today.

What kind of a fellow is this man
who works next to us? What do we
want him to be? What does he long
for in us?

Most of us long for a fellow who
knows us through and through and
still believes in us. We want a fellow
we never need to impress, yet are
never able to fool.

We long for a fellow who, if dis-
appointed or fed up with us, tells us
and doesn't pass us by with a look of

pained resignation, or worse—talk
behind our back, leave our work
bench dirty on purpose, or delibera-
tely hide our tools. We want a fellow
who, if he praises us, is really glad
and really grateful, not just set on
"giving encouragement."

We long for a fellow we won't
have to look up to and won't want
to look down on—a fellow we can
look straight at, who will neither
wheelie, flatter, coax nor force us.
We want a fellow who tells us what
he really thinks, puts all his cards on
the table and never plays politics to
get us on his side in some private
scheme or fight of his own. We want
a fellow who enjoys our company,
does not take us too seriously and
who needs our help and friendship as
much as we need his. We want, in

short, a fellow-fighter in the greatest
battle ever fought—the battle to
re-make the relationships among all
men.

Teamwork such as this is more
than working together to get a job
done. It is working to make democ-
racy workable—to weave a new
kind of world. When we work to
build that kind of caring in each
other all along the production line
and into the manager's office; when
we work to build it now with the
next man—then by Labour Day next
year we will have the substance of
the new world for which we are
fighting.

PUBLIC NOTICE

WAINWRIGHT SCHOOL DIVISION No. 32

Sealed Tenders will be received by
the Board of Trustees of the above
school Division at the office of the
Secretary-Treasurer up to noon
September 16th, 1944, for the erec-
tion of a one-room addition frame
school building in the Irma Rural
High S.D. No. 1, after plan number
1443.

Plans and specifications may be
obtained from the Secretary-Treasurer
on payment of a deposit of \$5.00.
Plans must be returned within 24
hours, and deposit will then be re-
funded.

A marked cheque for five per cent
of the amount of tender must be en-
closed with each tender as a guaran-
tee that same is bona fide. No tender
will be considered without this
cheque attached.

The lowest or any tender will not
necessarily be accepted.

OLIVER G. GRIFFITHS

Sec.-Treasurer

Wainwright School Division No. 32
Irma School District No. 1
Nearest station, Irma. 13-9

PUBLIC NOTICE

TOWN OF WAINWRIGHT

NOTICE TO RELATIVES OF PER- SONS ON THE ASSESSMENT ROLL AND TO TENANTS AND TO RELATIVES OF TENANTS.

NOTICE is hereby given, under the
provisions of section 106 of the Town
and Village Act, that during the
months of September and October,
applications may be made for inclu-
sion in the voters' list of THE TOWN
OF WAINWRIGHT, by the following
persons, namely:

1. The wife, husband, father and
mother and every son and daughter
of any person whose name appears
on the assessment roll who are en-
titled to be placed upon the said list,
(a) if he or she is a resident with-
in the town or assists him in a
business in respect to which he
is taxable; and
(b) if he or she is of the full age
of twenty-one years; and
(c) if his or her name does not
already appear on the roll.

2. Tenants who have rented an as-
sessed parcel or a self-contained
apartment or residence on an as-
sessed parcel upon which there are two
or more self-contained apartment or
residence for a period of twelve
months immediately preceding the
last day of August of this year.

3. The wife, husband, father or
mother, and every son and daughter
of any tenant who has rented an as-
sessed parcel upon which there are
two or more self-contained apart-
ments or residences for a period of
twelve months immediately preceding
the last day of August of this year,
who are entitled to be placed upon
the said list.

Do You know

If some of us really don't care what
ideologies other nations take up, it
may be that we really don't care
about our own.

Voluntary order and agreement
here at home are as necessary as
obedience to military orders at the
front.

The home front is a false front un-
less men are true to each other and
to Canada's ideals.

We talk about reorganizing plans
for peace. It is not quite as simple as
that. We have got to remake people.

Run your life on honest lines and
you won't have to worry about any-
one reading between the lines.

Recipe for a Sound Home: Turn
over a new leaf together and keep
your lives an open book.

Some folks who need a magnifying
glass to see their neighbors' good
points would find the real trouble if
they used the looking glass at home.

- (a) if he or she is a resident with-
in the said town or assists him
in his business in respect to
which he is taxable; and
- (b) if he or she is of the full age
of twenty-one years; and
- (c) if his or her name does not al-
ready appear on the roll.

Dated at Wainwright, Alberta,
this 9th day of August, 1944.

DON PAWSEY
Sec.-Treas

MAGIC BAKING POWDER

Magic's Rich Prune Biscuits

1 c. sifted flour
4 eggs, beaten
1/2 c. milk
1/2 c. oil
1/2 c. whole wheat flour
1/2 c. brown sugar
1/2 c. raisins
1/2 c. prunes
1/2 c. chopped
steamed prunes, as
desired

4 cups, shortening
1/2 c. milk
6 to 12 chopped
steamed prunes, as
desired

Sift together first three ingredients. Add
shortening until mixed. Add milk to make
soft dough. Roll out 1/4 inch thick, spread
with well-drained chopped prunes; sprin-
kle with brown sugar. Roll as for jelly roll.
Cut in 1-inch pieces; stand on end in mod-
erate greased muffin pan. Bake in moderate
oven (375°F.) about 30 min. Makes 15.
Costs less than 1¢ per average baking.

Prepare NOW For The Busy Season Ahead

LET'S SHOW OUR COLORS

Our fighting forces face a harder
and more dangerous task than ever.
Yet they are willing to make any sacri-
fice.

We at home must show the same un-
selfish spirit. We must buy War Sav-
ings Certificates and Stamps until it
hurts! It's the very least we can do—
and no one who is able to buy them
should escape this duty! So let's prove
we're ready to do our share by buying
EXTRA WAR SAVINGS CERTIFI-
CATES.

PUT VICTORY FIRST
**War Savings Stamps
and Certificates**

SPACE DONATED BY THE
BREWING INDUSTRY OF ALBERTA

about the things you buy in wartime

Milk IS NOT ELASTIC

Milk is our most valuable food. It
must provide us with milk to drink,
with butter, cheese, evaporated and
concentrated milk and a score of
other products.

Canadian farmers have done a
magnificent job. They have increased

milk production in 1943 by more
than 540 million quarts over 1938.
They have done this in the face
of a 25% reduction in farm help,
equipment shortages, and the fact
that it takes two to three years to
bring a calf into milk production.

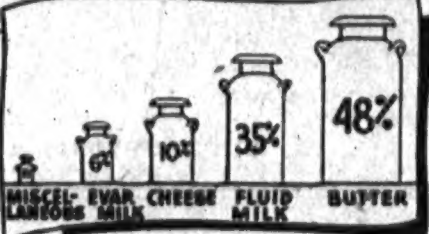

WHAT HAPPENS TO ALL THIS MILK?

In spite of greater production, the
demand for milk and milk products
has risen even more, because—

- (a) There's more money to spend;
- (b) More people are working, with
changed food habits and in-
creased food needs;

(c) Our Armed Forces and Allies
make heavy demands.

It has therefore been necessary
by rationing, by subsidies, by
careful planning and by other
controls—to divert our milk sup-
ply into channels most suited to
our various food needs.

FLUID MILK TAKES 48% OF OUR MILK

Because fluid milk is regarded by nutri-
tionists as the most nearly perfect food,
nothing has been allowed to interfere with
its sale. Today, Canadians are drinking
more milk and a greater percentage of
our milk supply is being consumed as
fluid milk—than ever before. Fluid milk
has the right of way, but don't waste a
drop of it.

IT TAKES 9 QUARTS
OF MILK TO MAKE
ONE POUND
OF BUTTER

The only Canadian-made
butter not consumed in Can-
ada is that sent by the Red
Cross to prisoners-of-war par-
tially each of which contains
a 1 lb. tin.

BUTTER TAKES 48% OF OUR MILK

In the first three years of war, our butter
consumption increased 10.9%. So, ration-
ing was established to prevent too much
milk going into butter, at the expense of
other important milk products, and to
insure a fair share to everyone.

The rationing of butter was influenced
by the fact that it has less nutritive value
than some other milk products, and be-
cause we get a generous supply of fats or
their food equivalent in other forms.

To maintain a proper balance of con-
sumption between various milk products
and to ensure that butter is put into
storage for winter use—when production
drops—it is necessary to reduce the ration
from time to time.

CHEESE TAKES 10% OF OUR MILK

Canada's annual cheese production has
gone up by about 37 million pounds since
the war.

Cheese is a concentrated food product—
easily shipped and stored. That is one
reason why we send large quantities to
Great Britain to meet its pressing
food needs. While in the last year we ex-
ported four of every five pounds of cheese
we made, our production has been so
increased that we have left for domestic
use about three million pounds a year
more than before the war.

EVAPORATED MILK TAKES 6% OF OUR MILK

More than twice as much (152 million lbs.)
was used by Canadians this last year as in
1938 (74 million lbs.). And yet, there has
not been enough.

Where has it all gone? It's an important
food for babies—and there are 50,000 more
of them a year. Larger quantities have
gone to areas where fresh milk is not
available. Armed Services have added new
demands. In spite of this, our exports of
evaporated milk to Great Britain, New-
foundland and the West Indies, etc., are
maintained at pre-war level.

ICE CREAM AND OTHER MILK PRODUCTS TAKE ABOUT 1 1/2% OF OUR MILK

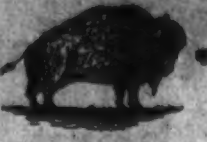

The manufacture of ice cream is restricted
to the 1941 level because milk is needed
for other purposes. Milk Powder and Condensed Milk are tak-

ing more milk. Milk sugar is used in the
manufacture of Penicillin and for other
wartime purposes. Casein (a milk by-prod-
uct) is used in making glue for aeroplanes.

90% OF THE MILK PRODUCED IN CANADA IS CONSUMED IN CANADA

Farm Notes

LONGER LIFE FOR MILKER RUBBER PARTS

Rubber of the quality required for milker inflations is very scarce these days. Consequently it is important that each milking machine owner does all he can to prolong the life of the rubber parts. This can be done by keeping them as clean as possible, preventing their exposure to strong light, and by a periodical treatment to extract the butterfat which works into the pores of the rubber and ultimately makes it flabby.

A treatment which originated in New Zealand, and which has given very good results at the Central Experimental Farm, Ottawa, consists in boiling the inflations for four or five hours in a strong (4 per cent) caustic solution. Four heaping teaspoonfuls per quart of water, or 2 cans of household lye in 3 gallons of water is the solution recommended by the Division of Bacteriology and Dairy Research, Science Service, Dominion Department of Agriculture. The inflations are then removed and rinsed several times in hot water, brushing to remove any dirt loosened by the treatment. If the lye solution is allowed to cool undisturbed, a surprising amount of soap, formed through interaction of the extracted butterfat and the lye, will solidify on the surface. Inflations treated in this manner once a month will have longer life, while in many cases the bacterial content of the milk drawn through the machine will be lower.

A mimeographed sheet giving more detailed directions covering this method may be had on applying to the Dominion Department of Agriculture, Ottawa.

WINTER GREEN FEED

Farmer poultry flock owners who utilize home grown feeds to the fullest possible extent sometimes find it difficult to supply enough green feed to the birds. Succulents in the form of turnips are not always available and alfalfa leaf meal, in small lots, is now practically off the market.

To meet this emergency the Dominion Experimental Station at Charlottetown, P.E.I., has been gathering green food from two sources, lawn-clippings, and aftermath, or second-

cut clover, says B. F. Tinney, Assistant to the Superintendent. While it is appreciated that lawn-clippings are not commonly available in large quantities on the average farm, this short-grass material does form an excellent source of green feed for hens.

As gathered at the Charlottetown Station, lawn clippings are from one half to one and one half inches long. They may be collected in a grass catcher attached to the lawn mower, cured by spreading several inches thick in a current of air and turned once or twice so that they will dry quickly. During the drying process they are not exposed to rain or dew. When thoroughly dried they may be stored like any other hay crop.

Second-cut clover was harvested when coming nicely into bloom and cured and stored in the same way as grass clippings.

Two methods of feeding were tried. The first, the material was fed dry, in chicken wire racks attached to the wall. Birds seemed to relish either one and ate practically every particle except the clover stems.

In the second method the material was placed in a tub or cask and a relatively small quantity of scalding hot water was poured over it, the container being covered immediately with sacking. Sufficient water was used so that in a matter of fifteen to twenty minutes the feed would be well softened by the steam retained within the container. The commonly accepted practice, however, is to soak the lawn clippings or clover over night in cold water.

This feed was then placed in wire racks or on a clean platform and was eagerly eaten by the birds.

Production was maintained at a high level without any other source of green material, and observation disclosed that hens receiving this material were of better appearance and gave less evidence of feather pulling.

World of Wheat

H. G. L. Strange,
Director, Research Department,
Searle Grain Company, Ltd.

Farmers will soon be threshing their grain. Many farmers will harvest a crop that was grown from good Registered or Certified seed. Such grain, I suggest, should be threshed very carefully with a separator that has been thoroughly cleaned, then the threshed grain should be binned separately so that it will not become mixed with other grains.

A farmer who has grown grain which is really good seed — of this quality, can improve the crop of many of his neighbors if he will offer this good seed to them at a small premium over the market price. When Registered or Certified seed is offered for sale in commercial channels the fields have to be inspected, and the seed in the sack has to be inspected and government sealed. No inspection of this kind, however, is needed if seed is sold by a farmer to his neighbors.

The late Dr. Robertson, founder of the Canadian Seed Growers' Association, once expressed the view that every farmer who produced a crop of true-to-variety grain suitable for seed, managed in effect an illustration farm that would help to improve the quality of the crop, hence the income, of all his neighbors.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS
Uruguay's 1943-44 wheat crop is estimated to have totalled 8,745,000 bushels, or about 30% less than the preceding crop — Morocco's 1944 wheat crop, according to recent reports is considerably below average, and will fall short of domestic requirements — Germany is demanding 55% of the wheat produced this year in the Italian Provinces still under German control.

Bulgaria is again permitting the sale of white flour — As a result of the abundant cereal crops this year, is also raising the percentage of wheat flour in bread to 90%.

NATIONAL IMMUNIZATION WEEK: SEPTEMBER 10-16

Toronto—In support of the programs of health departments throughout the country, the Health League of Canada is sponsoring the third annual National Immunization Week, September 10 to 16.

National Immunization Week is intended to direct attention of parents to the dangers of preventable communicable diseases such as whooping cough, diphtheria, scarlet fever and smallpox, which annually take a toll of hundreds of young Canadian lives.

The week will be opened by a message from His Excellency the Governor-General. Through the co-operation of the National Film Board, a movie will be shown in all theatres. Newspapers and magazines will carry stories, while the radio and sponsored advertising will assist the

program. Posters and leaflets are available in French and English. These are supplied by the Health League of Canada.

SUPPLIES NEW ELECTRIC REFRIGERATORS CEASE

No new electric refrigerators will be released for domestic use after August 31, the Wartime Prices and Trade Board declares.

Production ceased in 1942 but limited numbers have been released since from stock built up. Canada's existing stock of 226 new domestic type electric refrigerators — the equivalent of one day's production in normal times — is being reserved for hospital use.

FRESHER, CHEAPER FOOD for your table
by men who think of tomorrow

TOMORROW'S EVERGROWING GARDENS... Why should garden-fresh vegetables be available only in summer? Why should rich, ripe strawberries be a luxury in winter? Men who think of tomorrow are doing something about it. In Scotland, where seasons are short, it has been possible to grow six to eight crops of vegetables a year by heating truck gardens with underground steam pipes — under glass in winter, open to the air in summer.

MEN WHO THINK OF TOMORROW are planning to feed the world better than it has ever been fed before, to make it healthier than ever before. It is a glorious future to which we may look... but only after the war is won!

Are you working at your "war job" as hard as you can?
Are you saving and turning in wastepaper to help meet the serious shortage this country faces in the manufacture of containers for war materials?
Are you collecting and turning in every last drop of fat from your kitchen to help feed the hungry machines that turn it into TNT?
Are you heeding the Government's plea to

curtail your personal travel so that troops and supplies can move freely over our already congested transportation systems?

Have you added your blood to that of millions of others to provide life-saving plasma for our wounded?

And have you increased your purchases of War Savings Certificates and Victory Bonds to the limit of your ability... and are you holding on to them?

Only by working as hard as we can at these and scores of other "war jobs" will we be sure of Victory... and the ever-ripening fruits of Victory. Let us all be **MEN WHO THINK OF TOMORROW!**

★ THE HOUSE OF SEAGRAM ★

All Seagram plants in Canada and the United States are engaged in the production of high-proof alcohol to help speed the war to a victorious end. High-proof Alcohol for War is used in the manufacture of Smokeless Powder, Plastics, Composites, Drugs and Medicines and many other wartime products.

DUMPLINGS ARE DELICIOUS

Remember grandmother's dumplings? They turned an ordinary dinner into a gastronomic delight. Here's a modern potato dumpling with a plus because it calls for a cereal with whole-grain nourishment. It's satisfying enough for a luncheon or supper main dish with a flavor that makes it a dumpling that really is a dumpling.

Potato Dumplings

5 medium potatoes
1 teaspoon salt
2 eggs, well beaten
½ cup sifted flour
¾ cup 40% bran flakes, slightly crushed
¼ teaspoon nutmeg
4 strips bacon, diced
2 tablespoons chopped onion
¾ cup 40% bran flakes, finely crushed

Wash potatoes and cook in boiling salted water until tender. Remove skins and put potatoes through ricer. Add salt, eggs, flour, bran flakes, and nutmeg; mix thoroughly. Shape into 1½ inch balls. (If mixture is too moist, add more bran flakes.) Drop dumplings into boiling salted water. When they rise to the surface, continue cooking 3 minutes, or until done. (To test doneness, cut a dumpling open. If center is dry, dumpling is done.) Remove dumplings from liquid; keep hot. Makes 24 dumplings.

Saute bacon and onion until bacon is crisp. Add bran flakes and mix well. Arrange dumplings on hot platter and cover with branflakes-bacon mixture. Serve immediately. Makes 6 to 8 servings.

Lemon Oatmeal Cookies

¾ cup shortening

¾ cup granulated sugar
¾ cup brown sugar
1 egg
1 teaspoon grated lemon peel
3 tablespoons lemon juice
½ cup sifted flour
½ teaspoon salt
½ teaspoon soda
2½ cups quick or regular, uncooked rolled oats

Cream shortening; add sugars gradually and cream well. Beat in egg until light and fluffy. Add lemon peel and juice. Sift flour, salt and soda together; add with rolled oats to creamed mixture. Drop from teaspoon onto greased baking sheet, and bake in moderately hot oven (375°F.) 12 to 15 minutes. Makes about 3 dozen cookies.

Labor Day's Laborless Recipes

Labor Day should be a holiday for the woman of the house as well as for those who work in shop, factory or office.

Quick-Frozen Baked Bean Salad

Combine thawed quick-frozen baked beans with half the amount of diced celery and green pepper, mixed. Arrange in the center of a platter or large salad plate. Surround with sliced tomatoes on lettuce leaves, topped with mayonnaise.

Quick-frozen baked beans, work-free and point-free, are just like the beans that our great-grandmothers spent so many hours preparing. They're ready to serve cold as soon as they are thawed, just as they come from their cartons; or they can be heated.

Spiced Mocha Froth

1 cup evaporated milk
½ teaspoon vanilla
Cinnamon
4 cups freshly made, hot decaffeinated coffee

Chill evaporated milk thoroughly. Then whip rapidly until stiff. Add vanilla. Place in serving cups, filling half full. Sprinkle with cinnamon. Fill cups with coffee. Makes 8 servings.

Good Coffee Froth: Use freshly made, strong coffee. Serve in punch cups or tall glasses with cracked ice, filling glasses as directed above.

Remember, when making decaffeinated coffee in a percolator, to let it "perk" from 15 to 18 minutes to bring out its rich coffee flavor. It's good hostess tactics to serve decaffeinated coffee, so that guests can relax, taut nerves over extra cups without worrying over sleeping problems later on.

Maple Cream Rennet-Custard

1 package maple rennet powder
1 cup milk, not canned
1 cup cream (light)

Set out 4 or 5 individual dessert glasses. Warm milk and cream slowly, stirring constantly. Test a drop on inside of wrist frequently. When COMFORTABLY WARM (110°F.) not hot, remove at once from heat. Stir rennet powder into mixture briskly until dissolved—not over one minute. Pour at once, while still liquid, into individual dessert glasses. Do not move until firm—about 10 minutes. Chill.

Safe Canning Rule

It's a patriotic duty to can everything you are able to. But be sure to use a pressure cooker for canning all vegetables except tomatoes. The hotter than boiling heat provided by the pressure cooker is the only safe way to avoid rare but deadly botulism poisoning, according to Good Housekeeping Magazine. Although rare, botulism germs may be on any non-acid vegetables you can. They are harmless until they get into airtight jars of canned food. But if the botulism bacteria are not killed in the canning process, they gradually create a deadly poison that usually is difficult to detect.

Peaches For The Good Provider
Now that the peach season is here again, she is doubly proud of her resourcefulness, for this garden fruit is truly a royal fruit and worthy of the very best treatment. To retain the rich, luscious flavor of peaches, make sure that the fruit is fully ripe and add natural fruit pectin. The short-bolt method of jelly making means half-again more glasses and a perfect "set." If these directions are carefully followed, you'll be assured of perfect results.

Ripe Peach Jelly

(Makes about 9 medium glasses)
3 cups juice
6½ cups sugar
1 bottle fruit pectin

To prepare juice, remove pits from about 3½ pounds fully ripe peaches. Do not peel. Crush peaches thoroughly. Add ½ cup water.

Bring to a boil, cover, and simmer 5 minutes. Place fruit in jelly cloth or bag and squeeze out juice.

Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottled fruit pectin, stirring constantly.

Then bring to a full rolling boil and boil hard ½ minute.

Remove from fire, skim, pour quickly. Paraffin hot jelly at once.

Ripe Peach Jam

(Makes about 8 medium glasses)
3½ cups prepared fruit
4½ cups sugar

1 box powdered fruit pectin
To prepare fruit, peel about 2½ pounds fully ripe peaches; pit and grind or crush thoroughly. Measure sugar into dry dish and set aside until needed. Measure prepared fruit into a 5 to 6-quart kettle, filling up last cup or fraction of cup with water if necessary.

Place over hottest fire. Add powdered fruit pectin, mix well, and continue stirring until mixture comes to a hard boil. At once pour in sugar, stirring constantly. (To reduce foaming, ¼ teaspoon butter may be added.) Continue stirring, bring to a full rolling boil, and boil hard 1 min-

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

SEX HYGIENE TAUGHT IN HIGH SCHOOLS

Widespread interest is being shown in the sex hygiene course offered in the four high schools of London, Ont., for more than two years, and some 2,500 girls have benefited. So far the instruction has been confined to girls in grades eleven to thirteen. Extension to lower grades and to include boys, is contemplated by the Board of Education.

According to Winnifred Ashplant, R.N., health councillor for the London secondary schools and the special instructor, the course includes factual knowledge of anatomy and physiology, embracing marriage, "with emphasis on proper ideals and attitudes."

The London high schools are among the few in Canada formally teaching sex hygiene and human relations and giving information about the venereal diseases. In Alberta, all high school students of both sexes are given similar courses by qualified personnel furnished by the provincial health department; while in British Columbia such instruction has so far been confined to a study of the venereal diseases in senior high schools.

"The instruction has been well received, and the attitude of the students is my greatest inspiration," Miss Ashplant, who is also a public-health nurse, reports. "Much has been done and is being done to improve the curriculum in relationship to the intellectual and physical aspects, but it is only recently that any responsibility has been taken toward the emotional and social development."

In answer to a questionnaire, 80 per cent of the girls taking the course asked for still more specific instruction.

"There is an increasing interest in and demand for this type of instruction, as evidenced by letters we have received from cities throughout the Dominion," Miss Ashplant reported.

100th Victory Wheel draw was won by O. L. Mison with No. 1.

Pete W. Skene, W. F. Davis, Cpl. D. Gordon and W.O. Jack Dempsey sent post cards saying they had received packages of cigarettes and wishing to thank all kind friends who made these gifts possible.

Mrs. Hensley of Saskatoon has opened her Beauty Parlor in the building at the rear of Mels Garage and is now operating under the name of "Terry's Beauty Parlor."

Mrs. Rose Reinhardt (nee Mildred Goede) and infant were visitors for a day here.

Mrs. Gilmour Sent of Vegreville is visiting at the Bank House.

Mr. and Mrs. Geo. D. Miles have left for the city where they intend making their home.

Mrs. Geo. McCaghy returned from a few days visiting.

The new school is taking shape fast and the roof is now completed.

GREENSHIELDS

Mr. S. Fossen of Cadogan arrived to take over the management of the National Grain Elevator from J. Steenson who has been transferred to Heath.

Adjusters were in the district this week adjusting hail claims.

Cpl. Fernie Gosselin is spending her furlough here with her parents from her duties at Calgary.

Miss Justine Hettiger of Morinville and Mrs. Alvin Heas of Mannville are visiting at the home of Mrs. Rufus Carl.

Mrs. A. C. Hutchinson and new baby daughter returned home from the hospital.

The railway welding crew are stationed here at present.

Mr. Paul and Carl Lundberg motor ed to Amisk on Sunday.

Miss Marion Haynes left on Monday's train for Saskatoon after spending two weeks vacation here.

Mrs. J. Rabby and Miss Evelyn Kozak accompanied by Eddie Rabby returned from holidays spent at Haight and Evansburg.

Miss Joyce Sirois of Fabyan was the guest of Miss Doris White for a few days.

HEATH

Clinton Davis and Miss Dorothy Spornitz both of Edmonton spent the week-end with their parents here.

Mr. Geo. Turnbull has been laid up with an attack of blood poisoning in his leg.

Miss Jean Hughes has left for Cam rose to attend business college there.

Mrs. T. F. and M. Dixon of Hughenden are spending a holiday at Clear Lake.

Miss Evelyn Ford is leaving this week to attend Normal school in Edmonton.

Mr. Bert Ford is home from Calgary for the harvesting season here.

Mrs. Todd and family and Mrs. Butler and family who spent the summer in the district are leaving this week for their respective homes at Vancouver and Ottawa.

Mr. H. Smith is a patient at the local hospital with a fractured arm.

A number of Edgerton people have taken over the cottages at Clear Lake and are enjoying the camping there.

Dr. Morton Long of Regina is visiting his mother Mrs. R. H. Long at the Huntingford cottage at Clear Lake.

WHITE CLOUD

Rev. Wilson delivered his last sermon Sunday, before being transferred to a new post.

We hear from overseas that LAC Lawrence Blason has just recently been married.

Miss Betty Babb spent an afternoon at the home of Mrs. Elwood Plaxton.

A Ladies meeting will be held at Babb's weather permitting.

We are truly very sorry to hear that little Clayton Tonda had the misfortune of smashing his thumb when he was helping his dad pull a large rock.

Christmas Gifts For Overseas Forces

"Do not open until Christmas."

That exciting phrase should soon be making its appearance on parcel mail despite the fact that many places in Canada are just recovering from the hottest spell on record. Postmaster General William P. Mulock advises that it is time to make plans for Christmas gift parcels to members of the Armed Forces Overseas. The Christmas mailing period this year is

September 15 to October 25. Naturally parcels sent to those serving in the more remote theatres of war should be sent the earliest. Suggested "deadline" mailing dates are:

SEPTEMBER 15 - The far East, India, Burma, Ceylon, etc.

OCTOBER 5 - The Middle East area - Egypt, Iran, Iraq, Syria, etc.

OCTOBER 10 - Central Mediterranean Forces.

OCTOBER 25 - The United Kingdom and France.

In view of the rapid progress of the war these dates might possibly be subject to change.

Last Christmas season (Oct.-Nov.-Dec.) over 12,000,000 lbs. of parcel mail alone were despatched to the Forces Overseas from Canada. This year an even greater volume is expected. Therefore, EARLY MAILING IS NECESSARY to enable Postal officials to cope with the handling, and to carry out arrangements for transportation on trains and ships. Remember that cargo space is still at a premium. Bear in mind this year that the mail must travel greater distances - many of our troops are farther afield - on different fronts fighting under the conditions of mobile warfare - plenty of time must be allowed between mailing and delivery. Picture the chaos if everyone should wait till the last minute to mail - Postal authorities would be faced with the impossible task of providing sufficient space aboard the last ships leaving in time to ensure Christmas delivery. The result would mean a cheerless Christmas Day for thousands overseas looking forward eagerly to getting their Christmas gifts in time.

A suggestion to further help our boys and girls on Active Service receive their gifts from home is to voluntarily cut down, as far as possible, on the size of the package, even though the maximum weight at the special rate of 12 cents per pound is 11 lbs. This will enable authorities to ship a greater number of parcels in the cargo space available.

The bitter disappointment caused by late arrival of Christmas gifts can be spared our Fighting Services too if citizens will give the most careful attention to correct addressing and proper packing. Last Christmas season thousands of parcels were received at the Base Post Office in a damaged condition. They had to be set aside for repair or readdressing in order that they might be safely sent on to destination. This caused delay and extra work for the Postal Corps. The longer the distance a parcel must travel under wartime conditions to reach its destination at a battle front, the more imperative is careful packing.

Each parcel should be carefully

packed in corrugated shock proof containers, the contents compact so that they will not shake loose and break out of the package. Then the parcels should be wrapped in several layers of wrapping paper, and securely tied with strong twine.

On no account should "Shoe Boxes" be used as containers - they easily crush and break.

Avoid using fancy coloured Christmas paper as an outside wrapper, or coloured ribbon to tie.

For added security parcels may be sewn in strong cotton or similar fabric.

Any substance likely to leak, spread and damage the mails, if sent at all, must be enclosed in sealed metal containers with lids securely soldered on - then surrounded with absorbent material in corrugated cardboard and securely wrapped and tied.

Fresh fruits, grapes, pears, etc., or other items likely to spoil are not acceptable.

DO NOT MAIL GLASS JARS OR BOTTLES

The mailing of matches, safety matches, lighter fluid or any other inflammable substance is prohibited by law.

A completed Customs Declaration should be attached to each parcel.

All mail should be fully and clearly addressed in ink, without misleading abbreviations. Place a return address on the cover of each parcel and also a slip among the contents giving the name and address of the sender and the full complete Armed Forces address that appears on the parcel. Prepay all mail correctly. By refraining from writing to a member of the Armed Forces Overseas that gifts are being sent, until actually mailed, much worry can be saved the soldier. Do not disappoint our men by mailing too late for Christmas delivery.

Persons who MAIL EARLY FOR CHRISTMAS to the Armed Forces Overseas can rest assured that the authorities will do everything possible to make delivery on time.

Travel By Bus

Here's how you can help with our Nation's Transportation problem:

1. Travel on Tuesdays and Thursdays — instead of on crowded week-ends.
2. Avoid traveling on holidays, or during rush seasons.
3. If you are sometimes inconvenienced, smile it off as a contribution to winning the war.
4. Consult your Agent or Driver for travel information.

NEWS & VIEWS OF TOWN AND DISTRICT

***Notice to farmers: The Co-Op Market service recommends that all fat cattle that are ready should be marketed now, and gradually each week to ease the situation at the plants this fall; better values will be realized than when the capacity of plants will again be taxed. The Co-Op will ship hogs Thursday, as well as Friday each week. Phone 903 for cattle and sheep loading dates.

BORN—To Mr. and Mrs. E. Carl, of Wainwright at the Wainwright municipal hospital on August 30th, a girl.

Miss Eileen Edwards, a returned missionary from India, will speak at two special services in the Masonic Hall on Sunday next, Sept. 10th, at 11 a.m. and 7:30 p.m. Her evening topic will be "I saw Pearl Harbor bombed!" All are welcome.

Miss M. Johnson, of Edmonton, is spending her annual vacation with her parents, Mr. and Mrs. W. Johnson, of the Paschenale district.

Mrs. W. T. Lane, accompanied by her daughter, Mrs. W. Elliott of Edmonton, left last week to attend the wedding of her son Earle, which took place at Victoria on Sept. 1st.

ALL REBECKAS are reminded of the first meeting of the present term, which will be held in the I.O.O.F. lodge room tomorrow (Thurs.) evening. A full attendance is looked for.

Mr. H. A. Koch, manager of the Treasury Branch in town is away on a three weeks vacation at his old home at Three Hills.

Phil. Brassard, who will be remembered as a former farmer in this district, was here from Jonquiere, Quebec, visiting at the home of Sam Rajotte and other friends.

As will be noted from our advertising columns, Secretary Don Pawsey is asking that ALL eligible persons not at present on the voters' list of the town, get in their registration with him without delay.

Mr. C. W. Armstrong, of Edmonton is here in charge of the Treasury branch during the absence of Mr. Koch on holidays.

Mr. Morton Long, of Regina, is here to spend a short holiday with relatives.

Rev. A. D. Richard spent a couple of days in Edmonton last week on business.

Miss Elsie Horn arrived back home last week from the summer school in Edmonton.

Mr. and Mrs. A. F. Dreger, former residents in the district, were in town last week renewing old acquaintances.

Miss Frances Carroll was away over the long week end to visit with her sister in the city.

Mr. Len D'Albertanson of the Chauvin Chronicle was in town on business for a couple of days last week.

A WEEKLY EDITOR LOOKS AT Ottawa

Written weekly
for the weekly manager of Canada

Just a brief scan of the Sixth War-time Budget as brought down by Finance Minister Isley. Basic income tax rates are unchanged, but compulsory savings are off as of July 1st, while farmers benefit by the cutting off of existing tariffs and of the war exchange tax on farm machinery and implements. Income tax concessions include one which now exempts any child dependent on a taxpayer, whether his own or not. Medical expense deductions, now include those incurred outside of Canada. The Prices Board also clears up a point with the warning that any reduction in laid down costs through this measure, on agricultural equipment and repairs, must be passed on to the consumer.

Weekly Consumer Branch item:
